

Long Island Provenance

Our offerings of these native species originated from wild populations located on Long Island. Native plants with origins from a particular region offer greater adaptation when growing in the same region.

Achillea millefolium	Juncus greenei
Ammophila breviligulata	Leucothoe racemosa
Amorpha fruticosa	Liatris scariosa var. novae-angliae
Andropogon gerardii	Lindera benzoin
Andropogon virginicus	Myrica pensylvanica
Apios americana	Opuntia humifusa
Aralia nudicaulis	Panicum virgatum
Arisaema dracontium	Parthenocissus quinquefolia
Arisaema triphyllum	Pluchea odorata
Aristida purpurascens	Prunus maritima
Aronia melanocarpa	Pycnanthemum muticum
Asclepias incarnata	Pycnanthemum tenuifolium
Asclepias syriaca	Pycnanthemum virginianum
Asclepias tuberosa	Rhododendron viscosum
Aster laevis	Rhus copallimum
Aster linariifolius	Rhus glabra
Aster novae-angliae	Rosa palustris
Baccharis halimifolia	Rosa virginiana
Baptisia tinctoria	Sambucus canadensis
Betula populifolia	Schizachyrium scoparium
Calamagrostis canadensis	Solidago caesia
Carex laxiculmis	Solidago juncea
Cephalanthus occidentalis	Solidago nemoralis
Chamaecrista fasciculata	Solidago odora
Chrysopsis mariana	Solidago puberula
Clethra alnifolia	Solidago rugosa
Cornus amomum	Solidago sempervirens
Decodon verticillatus	Solidago speciosa
Deschampsia flexuosa	Sorghastrum nutans
Eragrostis spectabilis	Spiraea alba
Eupatorium fistulosum	Spiraea tomentosa
Eupatorium hyssopifolium	Triadenum virginicum
Eupatorium perfoliatum	Trichostema dichotomum
Euthamia caroliniana	Typha angustifolia
Fern - Sensitive, Netted Chain	Vaccinium macrocarpon
Hamamelis virginiana	Verbena hastata
Hibiscus moscheutos var. palustris	Vernonia noveboracensis
Ilex verticillata	Viburnum dentatum
Iris prismatica	
Juncus effusus
